

Multiplication & Division

X3 Times Tables

Times tables are important to the children as we are currently looking at multiplication & division and the children will be tested in Year 4 on their times tables knowledge.

This week the children will have daily quizzes on the 3 times tables.

I have set it up so the children can practise these either on Purple Mash or TT Rockstars according to their preference. If your child is concentrating on a different set of times tables I have set theirs to suit their needs.

Please note you do not have to record anything as I can see when children have these sites and can monitor their use online.

Thanks
