

Summer 2018 Home-Learning - Juniper Class

Please complete one home learning task every week. We hope that the suggested tasks will inspire some quality learning. Home learning needs to be handed in by Friday morning.

Grow your own!

Plant some seeds of your choice following the instructions from the pack. Record their growth over a number of weeks and present your findings. Maybe create a graph.

Taking Responsibility

Find out about plastics in the oceans. Write a report about what you discover. What do you think should be done? What can we do as a school? What can you do?

Create your top 5 favourites for a variety of things ... its up to you what you choose. (some ideas are books, favourite places to visit, favourite foods, drinks, hobbies, songs, cars...)

[My top Five](#)

- 1
- 2
- 3
- 4
- 5

Research out about Mexican festivals, food, sports and music & dance, and use what they have learnt to answer questions, retrieve facts and create information booklets

Create your own home learning task.

Discover Nature

Go on a hunt for interesting things around you ... maybe a bug hunt or bird watching. Represent the information you find in different graphs or charts. Research some facts about what you discover. Present any way you choose?

Create a game to practise your x tables facts or mental maths skills. Be ready to share it with others.

Explore signs of Summer in nature. Perhaps do a sketch of these or write a story setting. Can you include adventurous words and phrases, alliteration and similes?

Research design, make and evaluate a model of a Mayan temple.

Explore the counties. Try and learn as many as you can. Can you think of ways to help remember them? Eg if people you know live there that helps.

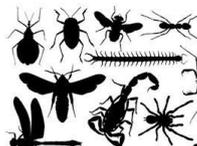

Investigate Maths

Can you solve this?

Creepy Crawlies

Ross collects lizards, beetles and worms. He has more worms than lizards and beetles together. Altogether in the collection there are twelve heads and twenty-six legs. How many lizards does Ross have?

Design

a poster to support spelling. Maybe it could the class remember the spelling rules taught this year or give top tips for learning to spell tricky words.
