

Juniper Class Autumn Newsletter 2018

Welcome to Juniper class. Everyone has made a super start this week and we look forward to welcoming you back after the holidays. We have an exciting Autumn term planned on your return.

Our themes for this term are 'Rainforests' in Geography, Electricity and Solids, Liquids and Gases in Science and 'Victorian Children' in History.

We have an exciting trip planned to Normanby Hall to take part in two Victorian workshops. More details to follow nearer the time.

Please can children to bring their PE kits in on a Monday, and leave it for the week as PE may be on different afternoons. As we have extremely limited cloakroom space so it would be helpful if children could use a small drawstring bag for their kits. Thank you.

N.B Please name all your child's clothing

Our Hook Event will be on **Wednesday 12th September**. If the children would like to dress up as a Victorian Child that would be great, however this is optional. Some exciting learning experiences are being planned for this day.

Home learning and new home reading books and challenges will be sent out at the beginning of the Autumn term.

Please visit our class blog regularly. You will be able to see a range of the learning that takes place. In addition, you can find details about the curriculum and home learning.

Home Reading records will be checked every Thursday.
Other home learning will be checked every Friday.

Reminder - children may bring a labelled water bottle each day.

Help - Please can children only bring a small bag to school eg a book bag as there is not enough space in the lockers for large bulky bags.

Wishing you all a lovely Summer holidays!
