

Stanford's 5 Cs

Care

Care is at the heart of our vision. Pupil voice always comes first and we learn with themes such as sustainability, inclusivity and children's rights as our golden threads.

"I like that we get to choose what we do as well-being activities."

"MacMillan coffee morning raises money for charity."

Creativity

We believe pupils thrive when they are given opportunities to think creatively. The creative arts and performance opportunities are a key area of our curriculum.

"We all made art to show our personalities - you can see it in the school entrance."

"I love playing djembe."

Challenge

Challenge comes in many forms in our school. Pupils can extend their knowledge with an ambitious curriculum and enjoy leadership opportunities through our many different pupil groups. Children also enthusiastically challenge injustice in the world.

"Reasoning and problem solving is my favourite part of the maths lessons."

"We asked our local MP how they can help schools."

Curriculum

Our curriculum is ambitious, bespoke and full of opportunities to prepare our pupils for the future. Pupils focus on developing a broad vocabulary, knowledge and skills set.

"My favourite book was The Boy at the Back of the Class. It helped us write letters to support refugees."

"Our trip to The Collection was amazing"

Community

Our school is part of a much wider community, including parents, carers, governors and local businesses. We endeavour to support our local community and learn from their expertise.

"I loved getting one of the hampers at Easter time."

"We had a visit from Sunita who taught us about Hindus in modern Britain."
