

Positive Comments- Remote Learning

"Home Learning is working a lot better this time round in Lockdown. Microsoft Teams is easy to use, I like this because it helps us to organise our day. Getting assignments daily with deadlines to meet is good because it's manageable and my son is not overwhelmed by it." Parent

"I wholeheartedly support the home learning approach and how thankful I am that there is a structured approach as we enter into this for the second time. I care immensely for my son's education and understand the importance of maintaining his education at this time." Parent
