

What Our School Does Well

Learning

Our school is amazing at hosting clubs and fun activities making sure everybody is included and involved. Show casing it with colourful and welcoming displays. Everybody in Stanford enjoys learning and has a positive attitude towards it.

Outdoor Area

Here at Stanford we really care about outdoor areas. We make sure we take pride and we do this by, litter picking, planting lovely flowers, and every child takes part in watering and taking care of the plants.

Fundraising

In our school we love raising money by doing, Macmillan Coffee Mornings, Harvest Festival, Activity day and loads of other things. We enjoy and love in involving the rest of our community and families.

Around School

Around our school we usually have special occasions where we have reading collaborations. This is where we read our books to either younger or older years in the school. We do this to talk and make friends with people who we would never usually talk or play with. Year 6 have kindly given up some of their time to help around school in any possible way. This can be assembly buddies or prefects on the door to keep the pupils safe.

Taking Care of The World

Recycling around school and even at home is very important and is one of our main priorities at Stanford. We care a lot about helping to save our planet and do a lot to spread the awareness. We make sure every pupil has a say and tell other people their opinion.
