## Year 1 Maths Fun Activities at Home

(Linked to this term's targets)

- Go on a **number hunt** around your house. What *numbers* can you find? Who can find the biggest number?
- Getting things **ready for tea**? How many forks do we need? What is 1 more, 1 less? What if we invited Mrs Brady and Mrs Christy - can you get 2 more?
- Building **towers with Lego**. Can you build a tower of 25? Is mine the tallest or the shortest? Do you have more bricks than me?
- **Climb the stairs**. Count in 2s all the way up. Label them with a post-it note. Take one away - which number have I pinched?
- **Make hands** by drawing around your hand and cut it out (or use gloves). Count in 5s with the cut out hands.
- **Jump around the garden**. Count in 2s or 5s. Who can jump and shout out the correct numbers?

Have fun while you're learning!
