“GOOD SCHOOL”

Ofsted February 2015

Leadership and Management	Good
Behaviour and safety of pupils	Good
Quality of teaching	Good
Achievement of pupils	Good
Early Years Provision	Good
Overall Effectiveness	Good

Dear Parents/Carers,

We are very proud to announce the results from our most recent Ofsted Inspection. As you know we have made great strides in improving the learning of children at our school and are pleased. You received a copy of the full report but here are just some of the wonderful things the inspectors had to say:

Pupils are polite and considerate towards each other and they respond well to the care that all adults show them. Pupils are proud of their school.

Teachers have high expectations for all groups of pupils. Marking is used very consistently to guide pupils to improve their own work and deepen their understanding.

The Headteacher provides a clear sense of drive and ambition for the school which underpins a strong and positive ethos. The governing body is focused and efficient.

All groups of pupils make good progress overall through school. Their progress is rapidly accelerating.

Good leadership and management of the early years provision have ensured that children have continued to achieve well.

The curriculum is well planned. Pupils participate in a wide range of stimulating, creative and sporting activities.

Classrooms are calm, orderly and attractive.

What does the school need to do to improve further?

Build on the already good teaching in order to further accelerate pupils' progress by:

- Ensuring pupils consistently work as hard as they can and are productive during their lessons
- Making effective use of other subjects to deepen pupils' learning in mathematics
- Making full use of the outdoors in the early years to promote learning in literacy more effectively.

Thank you very much for your continued support.

Yours sincerely

L Hackfath and V Brumfield
Headteacher Chair of Governors on behalf of the Governing Body
